

# TECHNICAL DATA

**BEDNAR**

DIRECTO NO

| Parameter                           | NO 6000       |
|-------------------------------------|---------------|
| Working width (m)                   | 6             |
| Transport width (m)                 | 2.9           |
| Transport length (m)                | 8.65          |
| Hopper volume (l)                   | 5,000 (40:60) |
| Filling height (m)                  | 3.2           |
| Drill coulter spacing (cm)          | 16.7          |
| Number of drill coulters (pcs)      | 36            |
| Drill coulter down pressure (kg)    | 250           |
| Fertilisation disc spacing (cm)     | 16.7          |
| Number of fertilisation discs (pcs) | 36            |
| Recommended output (HP)             | 200 – 350     |
| Total weight* (kg)                  | 11,000        |

*\*according to the machine equipment*
