

RR PLUS SERIES

PLANETARY DRIVES FOR FEEDER MIXERS

The RR Plus Series provides planetary transmission solutions for feeder mixer applications. Its modular architecture, broad ratio availability and customizable configurations support the selection of a compact drive tailored to the machine requirements.

KEY FEATURES

01

GEARBOX TYPE

**Planetary
gearbox**

02

FOCUS APPLICATION

Feeder mixers

03

DESIGN APPROACH

**Modular &
customizable**

VERIFIED RANGE DATA

MODEL / SIZE	MAX. OUTPUT TORQUE T_{2max} [Nm]
RR2500	37,000
RR3200	58,000
RR4000	75,000
RR5200	92,000
RR6500	125,000
RR8000	160,000
RR10000	190,000

APPLICATION NOTE

Final size, ratio, input configuration, output interface and accessories must be selected according to the feeder mixer duty cycle and machine layout. Values shown are published RR Plus range ratings.
