Double Union PP Ball Valve

Features & benefits :

- Strong & long lasting ball valve made of high quality pp material.
- 90^0 turn handle for opening & closing.
- More stronger & user friendly handle design for the longest life.
- Available in 20, 25, 32, 40, 50, 63, 75 & 90 mm withPN-6 pressure rating.
- UV resistant hence long lasting ball valve.
- Available in threaded & plain socketed connections.
- True Double union ball valve with adjustable leaf support for uniform torque.

Applications :

- Used for flow control in micro irrigation & lift irrigation.
- Most useful for agri, industrial, turf, landscape irrigation & chemical applications.

Parts of Double Union PP Ball Valve

Accessories :

- Handle for union ball valve.
- Nut for union ball valve.

Technical Specifications:

Sr. No.	Size	Type of connection	Type of connection	Pressure rating
1	1/2" Single union	Threaded (F x F)	Threaded (F x M)	PN-4
2	3/4" Single union	Threaded (F x F)	Threaded (F x M)	PN-4
3	1" Single union	Threaded (F x F)	Threaded (F x M)	PN-4
4	1.25" Single union	Threaded (F x F)	Threaded (F x M)	PN-4
5	2" Double union	Plain socketed (BIS Marked)	Threaded (F x F)	PN-6
6	2.5" Double union	Plain socketed (BIS Marked)	Threaded (F x F)	PN-6
7	3" Double union	Plain socketed (BIS Marked)	Threaded (F x F)	PN-6

USP : Double Union PP Ball Valve

Flow direction given for accurate installation

Leak proof design

High quality sealing rings

Specially designed handle for easy operation
