PROFESSIONAL HYDRAULIC MULCHER FOR SKID STEERS

The TFVJHPR model is designed to handle high performance and heavy-duty work. Its structure and composition allows the attachment to clear brush up to 25 cm [10 inch] in diameter. Its double chassis is made of SCM-500 high yield strength steel, with two counter-blades to assist the mulching operation. Its hydraulic motor and the hydraulic drive for opening the rear door is all protected. The ergonomic design of the head allows an excellent visibility to the operator.
