max. 15 cm
[6 inch]

5 - 15 TN

PROFESSIONAL HYDRAULIC MULCHER FOR EXCAVATORS

The TFVNMFHD model is designed to handle high performance and heavy-duty work. Its structure and composition allows the attachment to clear brush up to 15 cm [6 inch] in diameter. The shredder is made of SCM-500 high yield strength steel, with two counter-blades to assist the mulching operation. Its hydraulic motor and the hydraulic drive for opening the rear door is all protected. The crusher, equipped with two hydraulic hoods, is designed to work in both directions.

STANDARD DATA

- Mulches wood and brush up to 15 cm [6 inch]
- Reinforced frame with High Yield Steel SCM.500
- Ready to be attached to a excavator (standard plate)
- Transmission with trapezoidal belts type ‘B’ profile
- Hydraulic motor drive to choice 25 – 64 (Fixed or variable displacement)
- Reinforced double rear doors
- Double chain protection for the operator and the environment security
- Fixed hammers with double tip of Tungsten Carbide (Widia)
- Double tempered counter-knife
- Reinforced skids with Antiwear steel plate.

PRODUCT OPTIONALS

- Attachment excavator
- Pusher ripper
- Turntable with/without attachment
- Hydraulic hoses
- Hydraulic piston for second tailgate
- Double coil electric valve for tailgate opening
- Variable displacement piston motor
- Blade type rotor with plate limiter
