ATV 210 D - MISSOURI

ATV 210 DIESEL ENGINE HATZ 95 HP FOR LOGS UP TO Ø 21 CM

The ATV 210 D model is designed to handle high performance and ideal for various landscaping tasks. Its structure and composition allow to crush a wide variety of materials, such as: branches, twisted woods, trunks... Equipped with two hydraulic feeding rollers can brush up to 21 cm [8 inch] in diameter. The standard equipment includes a non-stress system, which includes different control programs and hour counter. The ergonomic design of the shredder allows an excellent visibility to the operator, great cutting efficiency and a long implement life.
