

L200

Compact 2-Speed Electric Drivetrain
Transmission with E-Motor

Maximum input power: 400 kW (536 hp)

Input Speed

Nominal: 1,500 rpm

Maximum: 3,600 rpm

Maximum Output Torque

Standard synchronizer: 5,400 Nm (3,983 lb-ft)

Heavy duty synchronizer: 11,000 Nm (8,113 lb-ft)

Input Connection: electric motor flange SAE #3

Weight: ~210 kg (463 lb) aluminum housing

Optional oil filter & cooler

Compact, lightweight design for highest performance and reliability

Direct electric motor mounting to SAE #3

Pneumatic gear change with synchronizer

Aluminium housing for high thermal capacity
